

# Homestay

An alternative to dormitory living on Thornton Academy's campus, the Homestay Program provides some of our international students with a unique opportunity to reside with a family and to enjoy the benefits of home life.

As a Homestay Student, you can:

**Strengthen** your English language skills through immersion;

**Gain** in-depth understanding of Western culture and the American way of life;

**Develop** a life-long relationship with a family that is closely connected to the Academy;

**Dine** on campus occasionally with dormitory students;

**Participate** in a variety of activities with dormitory students;

**Enjoy** special excursions and events with Homestay families.

*This school is authorized under Federal law to enroll nonimmigrant students.*
